

Hand Air Actuators

Hard Push Button Actuators

All hard push buttons have a sealed internal air bellow to prevent water from entering the air tube that connects the air button to the air switch. Hard push buttons have a diameter ranging from 0.35 inches to 2.5 inches and thread mount or push fit options available.

Hard buttons are available in the following standard colors and finishes: White, Black, and Chrome. Other options available upon request. Please contact us for more information.

Soft Air Bellow Actuators

Presair's push bellow hand actuators are made from a flexible UV resistant PVC. Bellows range in size from 1 inch to 2.8 inches, with multiple stem lengths available. Air bellow actuators are tested for more than 1 million pushes.

All air bellows are available in black, white or gray with a plain top or recessed for custom OEM decals. Other colors are available, please contact us for more information.

*Pictures shown illustrate our common actuators. Other styles available, please contact us.
